

Hume Highway lane closures and detours at Table Top

Notification letter

March 2026

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW (Transport) is upgrading a section of the Hume Highway at Table Top, north of Albury, to provide a safer and smoother road for road users.

What work are we doing?

This project involves road resurfacing on a 3.3-kilometre section of the highway's northbound lanes and 3.15 kilometres of the southbound lanes, between Plantation Lane and Landale Lane at Table Top.

Work also includes minor widening, improving drainage, installing safety barriers and upgrading signs and line marking.

The project will be carried out in three stages, across three financial years.

Stage one is the upgrade of 1.65 kilometres of the northbound lanes south of Tynan Road intersection.

When we'll be working

Work started in early February with the upgrade of two crossovers to manage traffic changes.

Stage one work on the northbound lanes is planned to start from **Saturday 11 April** and is expected to be finished in mid-June.

Work on the first stage will be carried out **Monday to Friday between 7am and 11pm**, and **Saturdays 8am to 1pm** as needed.

What will this mean for you?

We will be using machinery and equipment that generates noise, light and vibration.

We will make every effort to minimise impacts and carry out this work as quickly as possible.

Lane closures and detour routes

During work, the northbound lanes in the work area will be closed and two-way traffic set up on the southbound lanes.

Tynan Road intersection at the Hume Highway will be closed to all traffic, with traffic control and detours in place for the duration of stage one.

Closing the intersection, which is close to the work zone, will be safer for workers and motorists.

Please follow signage and allow an extra 20 minutes' travel time.

See detour routes and map over the page.
